DETAILED ANALYSIS OF THEME

Interpretation of the pentagram and texts Lydia Bosson

ANGELINA JOLIE

1. Introduction

In pentanalogy, we distinguish 9 types of individuals, that is 9 basic radiations. Each type of pentanalogy perceives the world differently. The type is the radiation, the main life theme. It is the colour of the individual. The basic filter by which the individual will perceive life experiences. Of course, the type occupies a crucial part in the pentagram but the figures that it is made of also play a major role.

The moment the working of one's type is perceived, one understands that our perception in relation to our past, our emotions and our sufferings are not collective general information but actually individual and personal perceptions. Becoming aware of one's type and its mechanism, helps us to free ourselves and grow.

The program is such that the type code enables us to get information on previous lives and on parents' relationships at the time of our conception. To conclude, each type has its own qualities, challenges and obstacles to overcome. To be born with a certain pentanalogic type therefore indicates what spectacles we are going to use to perceive our environment and what are the experiences that we are going to live.

1. The decisive age or the key to maturity
An important change in Angelina Jolier life

The decisive or maturity age is the result of all the numbers in Angelina Jolier date of birth. For example if Angelina Jolie born in 25.11.1972 = 2 + 5 + 1 + 1 + 1 + 9 + 7 + 2 = 28 = 2 + 8 = 10 (see introduction on the pentanalogy website). The native of this date is a type 10. In the above example the decisive age is at 28 years.

The decisive age can be considered as the fundamental step when this thing inside of us – called the self, the unconscious or even the soul – reaches maturity. It's at this moment that it becomes determined and is ready to accomplish its mission.

For this reason we live around the decisive age important moments. This can happen months before or after this maturity age. These are often essential experiences. This moment can be marked by an event that can take this kind of form : wedding, birth, professional change, meeting of a partner, travel, settlement in a new country, relationship change or an other new step in life.

The years before this step are part of the learning and training to finally arrive on the path.

After this step, it's like the path before Angelina Jolie unveils its magnificence and that its way gets all its soundness. A new vision appears. It allows to give a true direction to its existence. It's like from now on the mission, the personal quest, the search of this balance – unreachable until now – reveals

itself completely. We can truly talk about Angelina Jolier freedom.

Angelina Jolie's maturity age is at : 32

2.Angelina Jolie's type

Angelina Jolie's way of functioning in existence and her talents

The pentagram represents a star with five branches on which we can distinguish 10 positions, each one of them has a signification on a specific theme of life. The positions are fundamental because the digit is present, double, absent or visited by another digit, the pentagram will be very different. In this way, each pentagram is individual because according to one's type (see the types) and the digits of the date of birth, each constellation becomes unique. Discover how Angelina Jolie deal with the important matters of his/her existence.Angelina Jolie among those of the type 5 in pentanalogy. The number 5 is the very symbol of penta(5)gram that represents the material incarnation of man and characterizes the force of expansion. Copyright Lydia Bosson et Usha Veda Sarl. Version 1.02

you rarely arrive to realize your own ideas. You help and you often give your support to others everything while neglecting your own needs. In consequence you should learn to materialize and to do things for yourself before everything. You will succeed thus to a better help others. You hate routine and seek diversification and challenges to evolve. Don't dwell on wanting to impose yourself and put your need for importance into perspective. In this way you will experience more what you want so much: love.

8. Family influence and vital energy

You are among those sensitive women who love harmony and appreciate a balanced and beautiful environment. You are motivated and ready to invest fully to obtain it. Therefore, you don't fear work and know to show skills in many domains. You have the tendency to want to do everything by yourself for fear of losing your time with explanations. You like to take the initiative and practice a multitude of things. Often, you have created, right from your young age, a certain distance with your family because it is important for you to gain your independence as soon as possible. You are therefore born with the strength and vital energy required for shaping your life according to your own aspirations and you want to leave traces in this world. You can be very emotional without showing or verbalizing it.

9. Identity and individuality

You are among those who don't like being ordered around and if that is so, you feel easily compromised in your freedom and individuality. Your first reaction may be an outright refusal before reflecting on different options of putting things into practice.

Copyright Lydia Bosson et Usha Veda Sarl. Version 1.02

Then, you could suddenly surprise your family and friends, for after reflection, you anyhow carry out the request made. You like your advice to be accepted and implemented and you may be offended if your help is refused or not heard. You have a clear mind about what is right and wrong and sometimes struggle to get a new insight into things. Your sense of justice is developed but is based on your individual concept. You are very attached to your convictions and toil to modify them or change perspective. You like giving help and support to others but be careful not to impose yourself. Being on the fringe and different doesn't bother you and you like having the feeling of being a little « special », unconventional. You can't stand being « controlled» and always look for domains and activities with which you can experience your independence and individuality. You fear losing your freedom if you submit yourself. However, you like to change and with your spiritual growth you can free yourself more and more from your egocentric needs and concentrate on the essential aspects of life.

10. Beauty, love and harmony

You were born without any specific expectation from love. You have the opportunity to experience new things in this domain and accomplishing love depends only on you. It is therefore up to you to manage this aspect of your life. You will first of all adopt an attitude that will bring you to live some experiences with various persons, as a trial. It is rare that you like the same profile and the same type of persons for a long time. Your choice can therefore be multiple and you have the freedom to choose those that you want to love. However, you must learn to clearly state your needs and desires and express your visions on your relationships. This requires an inner process and a work on oneself, otherwise you will remain vague and only be in experimental phases.

You fear engagement, for you think that it is synonymous of sacrifice and of freedom and independence. The appearance of one being able to flourish yourself and to make you lose your objectivity. Creative, imaginative people who know how to make compliments and to give makes of consideration know to seduce you sensible to out and of beauty, you like a romantic and peaceable level.

11. Listening skills and integration

You are free in your choice of your centres of interest. You can thus decide what you want to know, learn, specialize in etc. All you have to do is to ask, and you will obtain the required information. However, if the request is not clearly worded, access will be barred. You need to show initiative and have a clear objective to acquire this knowledge. If you are interested only in the community «trend», you risk omitting in recognizing your real talents. Nevertheless, as you have a difficult choice to make, you require some time to determine your field of interest. You have the possibility of developing talents in the most varied domains. However, it is important for you to learn to transmit the skills that you have acquired. Thus you evolve on all levels of life, spiritual, mental, emotional and material. If you use this spiritual seed and you contribute more at the right moment and at the right place then the Universe will reward you abundantly. Knowing how to seize this opportunity depends a lot on the work that you do on your personal development.

Your timidity can render you little septic and proud you can attach much more to acquisition. Doing this can block your evolution and present progress. You have need of time and distance to be able to form

Copyright Lydia Bosson et Usha Veda Sarl. Version 1.02

your own opinion or something or someone and you should ask for a long times in order to act. This constant hesitation makes one perceive you as someone complicated and / or cold, serve in your judgment. You should learn to forgive and to overcome their wounds. Do not remain forced on your experiences of the past that which will reduce you bitter and to contribute to doing what you especially attract in complicated and negative situations. A positive attitude and enthusiasm the face of life is determined for you, in that which causes the possibilities of abundance and flourishing in all levels (material, psychological, spiritual). You should take the initiatives and create (begin) communication with others. You will then be surprised by the resonance that this manner of action can create.

12. Vocation and relationship to authority

If you show courage and commitment, you will manage to penetrate and impose yourself in the domain of your choice. You must learn to assert yourself within your social position. If you adopt a holistic vision and you have clear objectives and goals, you can acquire independence and autonomy. You must gain confidence in yourself and have targeted use of your capabilities. You hold the possibility of realizing the highest ambitions if you do not submit to the «dictates» of the community and if you aspire to realize your spirituality. This requires an investment and a permanent action and will power and perseverance on your part. You will thus win over your natural need to hide yourself behind others and get a lot of recognition and success.

You execute your tasks in conscientious and precise manner. You seek above all material success, which you motivate to progress. Rational and realistic, you have a tendency to excessive materialism in the first half of your life. By following them, the experience you push to open yourself to the spiritual domain and to develop to your advantage your emotional intelligence. The paternal image is often noticed as dominant and authoritative and influenced your first professional choice but equally colors your relation with men in general. With maturity, you will succeed to take more and more recoil by rapport of your need to recognition and will cultivate these.

13. The challenges of existence or thresholds

The more the circumstances will be against You, the more the inner strength will be striking.
- Vivekananda

The reading of your pentagram allows a threshold to appear. It is a combination of digits that includes two opposite polarities.

It can see itself as door, a passage, an opening or a bridge: in all these cases, it is a challenge to be conquered in order to create harmony between two aspects that seem to be totally contradictory.

It stands out as an examination to be taken and is connected with a process of personal development. It is therefore a stage to be crossed.

The problems, obstacles, difficulties, realization constitute these thresholds and our duty is to conquer them.

To live one's threshold is an opportunity that allows us to abandon old patterns, abandon our beliefs, constraints and obstacles.

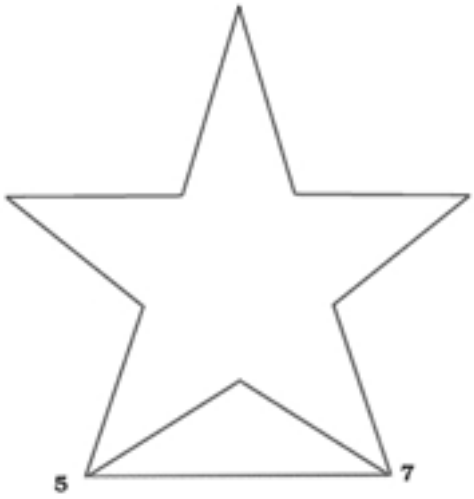
Copyright Lydia Bosson et Usha Veda Sarl. Version 1.02

Conquering a threshold enables one to free oneself, create a new space that one can arrange according to one's wishes.

If difficulties are considered as opportunities that can consciously change our destiny, the passage of the threshold brings a new freedom and liberates our real potential. Our inner strength is thus reinforced.

Any problem resolved, any difficulty surmounted, any obstacle eliminated brings gain and success to the one who knew to handle it!
The material threashold (5-7)

BIRTH & VITALITY



Of all the thresholds, it is the easiest to win over because most of the time it is already conquered at birth. You may have been born with difficulty. Right from this time you have been placed under an important divine protection, and although you are of an impulsive and instinctive character, you are slowly guided without you being aware of it. Born with certainties inscribed deep down in your cells you will go through life against hell and high water. Display your desires and will clearly: they will thus be always taken into consideration. Even though your life's path is sometimes difficult, you know how to accept it because your subconscious knows it has to face difficulties to be able to evolve and accomplish its mission on earth. Optimistic and fun loving, during difficult times you know how to see the good sides of things and can easily make up the lost ground. Your flexibility helps you to adapt yourself to new situations. Having reached a new stage of incarnation, you are capable of undergoing hard blows from fate without ever being destroyed. You have to however to respect the laws if you don't want to stagnate at this level. You must thus get involved to acquire new knowledge and widen your horizon. Therefore, you are often considered as special, different, indeed exotic. Non-conformist, you wish to improve and change the events in order to contribute to a better life on earth. See to it that you don't misuse your powers on others. You are likely to undergo material constraints obliging you to question yourself and review your strategies and your lifestyle in general. At the physical level, you can get a feeling of general heaviness and more particularly in the legs. You are deeply linked with telluric forces and sometimes struggle to detach yourself and progress. Learn therefore to «let go» on a daily basis and refuse to play a role of victim. Be also aware of your power and avoid abusing it. Thus, your life will be lighter and will become more cheerful.

14. Angelina Jolie's mental attitude and professional

One perceives you generally as someone a little special, marginal, indeed capricious. In reality, you like only to go your own way n\\. But through your originality and imagination you know to attract sympathy. One therefore finds you attractive!

Copyright Lydia Bosson et Usha Veda Sarl. Version 1.02

You like being in group or in collectivity so that you are able to play an important role in it indeed even be able to direct it.

In face of challenges and conflicts, you know to show courage and total and complete personal commitment. But when you are too occupied by yourself or you have a fixed idea you have the tendency to go in a round. Inventive genius, avant-gardist, a little chaotic, you are inspired and are never completely detached from other dimensions.

Your non-standard creativity, makes you introduce new dimensions and new ideas in our world.

However, you don't hold in place and suffer from agitation and inner nervousness. Don't overtire your physical body because you have difficulty in knowing what is good or bad for it: become aware of the fact that you are not a tireless battery!

Finally, your liking for occult sciences must not make you lose sight of a certain vigilance so taqht you are not used as a medium for arbitrary purposes. Learn to count only on yourself and don't let yourself get manipulated and go on your life's path without dramatizing.

15. Conclusion

Your evolution may only result from some keys that you need to understand and knowing how to use. Thus you need to be aware that your need of importance creates precisely your suffering. All your emotions are only created by your mind and to show your real face won´t make you rejected by others. It´s your ego that creates your unconscious manipulations that must be revealed and that you need to be conscious of. Your need of success at any price must also be contained. Observe your environment and surroundings. Are the exchange with your relationships rewarding, are they making you evolving? If the people that surrounds you bores you, that you perceive them as ´ordinary´, that you have the feeling to be stuck, thus take a step back and observe.
