DETAILED ANALYSIS OF THEME

Interpretation of the pentagram and texts Lydia Bosson

JACKIE CHAN

1. Introduction

In pentanalogy, we distinguish 9 types of individuals, that is 9 basic radiations. Each type of pentanalogy perceives the world differently. The type is the radiation, the main life theme. It is the colour of the individual. The basic filter by which the individual will perceive life experiences. Of course, the type occupies a crucial part in the pentagram but the figures that it is made of also play a major role.

The moment the working of one's type is perceived, one understands that our perception in relation to our past, our emotions and our sufferings are not collective general information but actually individual and personal perceptions. Becoming aware of one's type and its mechanism, helps us to free ourselves and grow.

The program is such that the type code enables us to get information on previous lives and on parents' relationships at the time of our conception. To conclude, each type has its own qualities, challenges and obstacles to overcome. To be born with a certain pentanalogic type therefore indicates what spectacles we are going to use to perceive our environment and what are the experiences that we are going to live.

1. The decisive age or the key to maturity An important change in Jackie Chanr life

The decisive or maturity age is the result of all the numbers in Jackie Chanr date of birth. For example if Jackie Chan born in 25.11.1972 = 2 + 5 + 1 + 1 + 1 + 9 + 7 + 2 = 28 = 2 + 8 = 10 (see introduction on the pentanalogy website). The native of this date is a type 10. In the above example the decisive age is at 28 years.

The decisive age can be considered as the fundamental step when this thing inside of us – called the self, the unconscious or even the soul – reaches maturity. It's at this moment that it becomes determined and is ready to accomplish its mission.

For this reason we live around the decisive age important moments. This can happen months before or after this maturity age. These are often essential experiences. This moment can be marked by an event that can take this kind of form : wedding, birth, professional change, meeting of a partner, travel, settlement in a new country, relationship change or an other new step in life.

The years before this step are part of the learning and training to finally arrive on the path.

After this step, it's like the path before Jackie Chan unveils its magnificence and that its way gets all its soundness. A new vision appears. It allows to give a true direction to its existence. It's like from now on the mission, the personal quest, the search of this balance – unreachable until now – reveals itself

completely. We can truly talk about Jackie Chan's freedom.

Jackie Chan's maturity age is at : 30

2. Jackie Chan's type

Jackie Chan's way of functioning in existence and his talents

The pentagram represents a star with five branches on which we can distinguish 10 positions, each one of them has a signification on a specific theme of life. The positions are fundamental because the digit is present, double, absent or visited by another digit, the pentagram will be very different. In this way, each pentagram is individual because according to one's type (see the types) and the digits of the date of birth, each constellation becomes unique. Discover how Jackie Chan deal with the important matters of his/her existence.

Jackie Chan among those of type 3 in pentanalogy that symbolizes force of action

. Joyful, naughty, creative, communication is Jackie Chan's main value. Passionate, generous, expressive, Jackie Chan like to convince, which is easy for Jackie Chan because Jackie Chan can master the verb with ease and know how to motivate and inspire others.

Jackie Chan like to discover the world but also like to be discovered. Words are constantly jostling in Jackie Chan's mind and Jackie Chan cannot wait to make things happen.

The term reaction

has great significance for Jackie Chan.

Jackie Chan react immediately

. Jackie Chan's legendary spontaneity can however play tricks on Jackie Chan: Jackie Chan react often without thinking and Jackie Chan could end up losing ground in situations that are beyond Jackie Chan's control. Then under stress, Jackie Chan get angry and find it difficult to express Jackie Chan's self clearly and this generates a negative attitude with people around Jackie Chan.

In spite of Jackie Chan's open mind Jackie Chan sometimes

fear others' reactions

; Jackie Chan hide Jackie Chan's sensitive side. That is why Jackie Chan hide Jackie Chan's problems or worries, because critics attack Jackie Chan easily and lead Jackie Chan to withdraw into Jackie Chan's self. Learn to express Jackie Chan's need for love clearly and frankly without fear of losing face.

Jackie Chan hardly look backwards, but are focused on the future, because progress and innovation interest Jackie Chan. Past years structures and forms bore Jackie Chan. Jackie Chan attentive and Jackie Chan see everywhere possibilities and solutions.

Hermès, God's messenger, could have been of type 3, because Jackie Chan know how to transmit and communicate messages in such a way that they are received positively. One could say that Jackie Chan's spirit is positive which expresses itself verbally.

Writing and journalism and any other form of verbal expression are talents that Jackie Chan could develop because Jackie Chan's imagination is creative and poetic.

However, Jackie Chan's numerous talents do not guarantee Jackie Chan an encounter with success because He has the tendency to spread Jackie Chan's self too thin and thus waste Jackie Chan's energy.

Jackie Chan often show courage and perseverance but Jackie Chan collapse right from the first criticism and hide Jackie Chanr sensitive and fragile side behind a «sure of myself » screen with a tendency to become cynical.

If Jackie Chan stop mimicking the strong lady and learn to show Jackie Chanr vulnerability, Jackie Chan will attract persons who will know to show Jackie Chan more tenderness and love that Jackie Chan need so much. Jackie Chan could share Jackie Chanr passions, and Jackie Chanr capacities to convince and motivate others will therefore be enhanced even more.

Jackie Chanr paramount fear is being alone , not having anyone around Jackie Chan with whom Jackie Chan can communicate, share. Then, Jackie Chan often make compromises and sacrifice Jackie Chanr primary needs. Jackie Chan don't particularly express what Jackie Chan really desire for fear of being rejected.

Beware! He has a tendency to criticize and judge, sometimes Jackie Chan intolerent and impatient. Jackie Chanr optimism is sometimes exaggerated and Jackie Chan take useless risks. He has a multitude of talents but He has a tendency to do too many things at once.

Jackie Chanr qualities: Jackie Chan intuitive, creative and enthusiastic. Jackie Chan know how to motive and encourage others. He has a sense of humour and know how to takes things in life lightly.

Archetypes of type 3: It is therefore possible to reinforce Jackie Chanr creativity and Jackie Chanr need for expression, through professions like journalism, writing, advertising, graphic design. But Jackie Chan also have the profile for being an actress, advocate, surgeon, beautician, sculptor, therapist, interior designer, decorator, artist, and finally warrior.

3. Determination of objectives

You are among those who are happy, making spontaneous decisions, flexible, and open-minded to be able to change directions at any moment. You are free and do not necessarily feel the need to achieve something at any cost. When you have visions, ideas that you want to fulfill, you don't let yourself be pressurized to make them a reality. As you are not very sensitive to material constraints, you are not afraid of these challenges as long as you are determined and have decided. However, in order to turn your dreams into reality, it is important to free yourself from family patterns and have positive ideas and visions. Be aware that you are actually realizing what you had decided and not the goals imposed on you.

Your keen sense of observation incites you to see chances and possibilities of others without feeling concerned for yourself. Especially for those you feel concerned selective bur flexible you have especially a passive role in the early part of your life. None the less when you take a decision, you immediately wish to concretes your objectives risking yourself as being impatient.

This aspect denotes a strong tendency to reflect at short term without having analyzed all the consequences of your actions. Supple and open you

know to adapt yourself and learn some new non conformist e things. You like to evolve and avoid at all costs.

4. Reasoning and analysis

You yearn to be able to think and analyse things in a holistic manner. However this seems to be a real challenge because your environment did not necessarily favour this aspect in the beginning of your life. Your mother is among those who are anxious and rather scared, sometimes victims, and the groups that gravitate around your family do not seem very open. Intuitively you feel that you must free yourself from these people's mindsets to grow, find the path of joy and find your own free way of thinking and analysing. Family constraints weigh a lot in the beginning of your life. With competent help and will, you will finally manage to form your own opinion, find your path and win over your past.

Salvedor Dali who having equaled his constellation had said: your way of thinking is above all concrete, realistic, practical and you seek perfection. Economic in the soul you know to calculate and manage. Your sense for calculation and for planning makes you an excellent candidate for professions having a logistic trait. It is easy for you to develop some systems loading you to earn time and money. You know to see all the aspects of a thing and always seek to depend your seeking knowledge.

Your environment can make you pleased you as an entity obstinate not liking to change opinion or conviction. This attitude can distance the people around and make you feel alone and misunderstood. Do not be obstinate and in order to keep control and efficient the cowardly taken or defeated attitude. Thus you can meet more serenity. Despite of your capacity to think very mathematically and

structured. You have often a naïve and candid side which makes it necessary that you should be able to learn to make a proof of your descremenent.

5. Communication

Flexible in your way of expressing yourself, you never react according to a fixed mindset. You are often unpredictable in your way of reacting and introducing yourself. Your family and friends never know completely how you can react because your emotions depend on your psycho-emotional state of the moment. Your way of doing things therefore depends on your guidance. You hate routine and need variety and diversity. You look for a professional activity allowing you to be in contact with other persons and where the capacity to communicate plays an important role. If you develop your capacity to visualise your objectives and if you show optimism, by adopting a positive attitude, success will be yours.

Spontaneous, flexible, open and sociable, you love to travel in teams and communicate with people. You know to put yourself in value, share your ideas with charm and you know to affirm your opinions with courage. All this without neglecting your capacity for empathizing and of compassion. It causes you to be tendency to over estimate others. You should learn to say "No" and to reflect before accepting responsibilities or missions. This will prevent you from feeling exploited. Despite the fact that you force yourself not to communicate your problems or your preoccupations. You are someone transparent that which makes people immediately know in which emotional state you are. It is very difficult for you to accept and to manage a deception and in this case you can no longer mislead. Nevertheless, your passion to contribute to the collective well being brings you much joy and satisfaction.

6. Time management and a sense of duty

You are among those men who are perfectionists, who like precision and who want the realization of plans to exactly correspond with their projection. You happen to note that there is stress around you without realizing that it is sometimes the source of these tensions. This is because you are demanding and you wish that your wife, children, colleagues, employees apply the same principles of order and perfection as you. Your need for material security is very important and could dominate all the domains of your existence. In this way it is difficult for you to venture into unknown zones at the material level and you can stagnate in uncomfortable situations for fear of missing and losing things. You have the feeling of being often confronted with material obstacles and having to also constantly assume the «survival» of your near and dear ones. You are often obsessed by the feeling of «lacking» time. Learn to affront fate with optimism, in a positive way, things will fall into place more quickly and your sufferings will cease. Stop working so much and give yourself more leisure time, to enjoy your house, being with your loved ones, more time for rest and regeneration.

7. Attitude in relationships

You are among those men who know how to realize their ideals. You know how to face challenges in the event of conflicts or problem. You like to live a passion to the fullest, know how to make quick decisions and move on to the next step, you don't experience any difficulty in imposing and asserting yourself within your family. Often your influence makes your immediate family evolve because the others wish to take advantage of your talent. Your loved ones are important for you but you are also attracted by far-away horizons, exotic cultures and

variety in general. You hate routine and seek diversification and challenges to evolve. Don't dwell on wanting to impose yourself and your need for importance must be put into perspective. In this way you will experience more what you want so much: love.

You need a social life in order to feel at ease and you like to share the good and bad moments. You equally like to decide your life for yourself at the same time you like to control (manage) and to guide others. Once again the dogmas and the rules are some schemes to degrade and to refute. Tolerant, you allow them to remain as long as they do not empty them selves on you territory animated by the compassion you know to meet the others in their diversity. The difficult situations are overcome and you do not keep as much of them from great fears. In a general way, you have a tendency to go out of yourself in life and to remain optimistic in the face of them. You cultivate the joy and avoid at all costs the feeling of being impressed

8. Family influence and vital energy

You are hardly disturbed by material constraints, as long as you don't have to face financial pressures. You often adopt a slightly passive attitude, and wait for signs for actions that you must undertake. In the beginning, you behave a bit clumsily when it comes to earning your life, because you assume that this must run smoothly. Your choice is almost unlimited as far as your vocation and professional activity is concerned, but you must above all recognize this freedom. In order to seize the opportunity to realize your vocation, you must show initiative, responsibility and independence. Otherwise, you leave room for fear, constraint and stress. If you remain passive, it may be that you had to face financial constraints in order to become aware of your resources, capacities and luck. In problematic

situations, you often demonstrate imagination and creativity. Right from the moment when you learn to take your own decisions and be independent, there is nothing to stop abundance and material success. You gain confidence in yourself when you succeed in realizing your own ideas. Even if you are separated from your family physically and you feel strange about it, you are connected psychologically and mentally. You will succeed in cutting the «umbilical cord», only by becoming aware of the events of your childhood. Sometimes, you unconsciously reproduce your parents' comportments because you have not understood their mechanisms well.

You know to adopt yourself easily to and to entirely focus on the needs of your life partner / companion at the risk of neglecting your own evolution. Sensible you need a harmonious environment and to take care of yourself. Your patience of ten makes you to adopt a position of wailing (expectation) by (relations) connections to things which neither provokes discussions and conflicts. Reserved with your companions you do not like to admit your weak points and need much time in order to regenerate yourself. Do not (think that) believe that uncertainty dares you to affirm an advantage to express your desires. It is thus that you will feel yourself connected to others and that your relations will be more open.

9. Identity and individuality

You are among those who don't like being ordered around and if that is so, you feel easily compromised in your freedom and individuality. Your first reaction may be an outright refusal before reflecting on different options of putting things into practice. Then, you could suddenly surprise your family and friends, for after reflection, you anyhow carry out the request made. You like your advice to be

accepted and implemented and you may be offended if your help is refused or not heard. You have a clear mind about what is right and wrong and sometimes struggle to get a new insight into things. Your sense of justice is developed but is based on your individual concept. You are very attached to your convictions and toil to modify them or change perspective. You like giving help and support to others but be careful not to impose yourself. Being on the fringe and different doesn't bother you and you like having the feeling of being a little «special», unconventional. You can't stand being «controlled» and always look for domains and activities with which you can experience your independence and individuality. You fear losing your freedom if you submit yourself. Are you overestimating values like freedom and individuality? How do you manage to be part of a team, a group? However, you like to change and with your spiritual growth you can free yourself more and more from your egocentric needs and concentrate on the essential aspects of life.

10. Beauty, love and harmony

You were born without any specific expectation from love. You have the opportunity to experience new things in this domain and accomplishing love depends only on you. It is therefore up to you to manage this aspect of your life. You will first of all adopt an attitude that will bring you to live some experiences with various persons, as a trial. It is rare that you like the same profile and the same type of persons for a long time. Your choice can therefore be multiple and you have the freedom to choose those that you want to love. However, you must learn to clearly state your needs and desires and express your visions on your relationships. This requires an inner process and a work on oneself, otherwise you will remain vague and only be in experimental phases.

In your relationships you know to adapt yourself with a great rapidity and to make your mark. Unconsciously you consider that the association with certain pairs (teams) will reflect what you are. An excellent actress you know to play the role which others expect from you as corollary to the tendency to admire others and to ignore your own possibilities. In case of problems you have a tendency to retire yourself and to luck. You should thus learn to concentrate yourself on what is important for you. Your experiences which can be negative or positive can become beneficial to help others.

11. Listening skills and integration

You are free in your choice of your centres of interest. You can thus decide what you want to know, learn, specialize in etc. All you have to do is to ask, and you will obtain the required information. However, if the request is not clearly worded, access will be barred. You need to show initiative and have a clear objective to acquire this knowledge. If you are interested only in the community «trend», you risk omitting in recognizing your real talents. Nevertheless, as you have a difficult choice to make, you require some time to determine your field of interest. You have the possibility of developing talents in the most varied domains. However, it is important for you to learn to transmit the skills that you have acquired. Thus you evolve on all levels of life, spiritual, mental, emotional and material. If you use this spiritual seed and you contribute more at the right moment and at the right place then the Universe will reward you abundantly. Knowing how to seize this opportunity depends a lot on the work that you do on your personal development.

You interest yourself to many things in life without nonetheless you concretely fix yourself. These engagements make you afraid because there is no

possibility coming back after stopping it. Once again you will meet success uniquely actear objective is fixed. Otherwise you have a tendency to disperse yourself you should learn to let go of the past and be open to the future. Above all you should learn to come to the things without wishing to control them at all costs. In the force of wishing to avoid to be seared (trapped caught up) you should exactly hold on to this situation often by perfectly paying no attractive people, you should cultivate the habit of telling things go and yourself from this, need to be(keep yourself) in control.

12. Vocation and relationship to authority

You are free in your choice of your social status. In the beginning of your life, you tend to adapt yourself or submit yourself because you are not used to power nor have the required skill to use it. Then, you often adopt a similar attitude to that of the dominant father figure, in the face of authority or domination. The way your father has lived his male side, greatly influences your yang side. If he was not able to free his inner power, you may fear authority during your entire life. If he were someone who knew how to share and transmit a sense of security, then you will know to take initiatives and commit yourself. However, you are free to be aware of this phenomenon and thus enable your real potential to free itself. You must reflect on what you feel with others: Do you feel helpless in the event of conflict? Are you looking for protection and help when you need to defend yourself? Your experiences during childhood are determining factors in finding answers to these questions.

As the relationship with the father figure is often difficult, sometimes non existent, the communication with men in general is not evident immediately at first. You should learn to develop

and function a certain objects with this regards. This phenomenon can equally create some difficulties to know your life and what type of profession you really wish to excersise. Your enemy should be channelized to in order to find your location. And to follow your path without you letting yourself be distracted and manipulated before conquering all other altruistic. You should above all realize yourself .Do not sacrifice of your dreams for fear of being more loved and to affirm yourself in your mission.

13. The challenges of existence or thresholds

The more the circumstances will be against You, the more the inner strength will be striking.
- Vivekananda

The reading of your pentagram allows a threshold to appear. It is a combination of digits that includes two opposite polarities.

It can see itself as door, a passage, an opening or a bridge: in all these cases, it is a challenge to be conquered in order to create harmony between two aspects that seem to be totally contradictory.

It stands out as an examination to be taken and is connected with a process of personal development. It is therefore a stage to be crossed.

The problems, obstacles, difficulties, realization constitute these thresholds and our duty is to conquer them.

To live one's threshold is an opportunity that allows us to abandon old patterns, abandon our beliefs, constraints and obstacles.

Conquering a threshold enables one to free oneself, create a new space that one can arrange according to one's wishes.

If difficulties are considered as opportunities that can consciously change our destiny, the passage of the threshold brings a new freedom and liberates our real potential. Our inner strength is thus reinforced.

Any problem resolved, any difficulty surmounted, any obstacle eliminated brings gain and success to the one who knew to handle it!
The material threashold (5-7)

BIRTH & VITALITY

Of all the thresholds, it is the easiest to win over because most of the time it is already conquered at birth. You may have been born with difficulty. Right from this time you have been placed under an important divine protection, and although you are of an impulsive and instinctive character, you are slowly guided without you being aware of it. Born with certainties inscribed deep down in your cells you will go through life against hell and high water.

Display your desires and will clearly: they will thus be always taken into consideration. Even though your life's path is sometimes difficult, you know how to accept it because your subconscious knows it has to face difficulties to be able to evolve and accomplish its mission on earth. Optimistic and fun loving, during difficult times you know how to see the good sides of things and can easily make up the lost ground. Your flexibility helps you to adapt yourself to new situations. Having reached a new stage of incarnation, you are capable of undergoing hard blows from fate without ever being destroyed. You have to however to respect the laws if you don't want to stagnate at this level. You must thus get involved to acquire new knowledge and widen your horizon. Therefore, you are often considered as special, different, indeed exotic. Non-conformist, you wish to improve and change the events in order to contribute to a better life on earth. See to it that you don't misuse your powers on others. You are likely to undergo material constraints obliging you to question yourself and review your strategies and your lifestyle in general. At the physical level, you can get a feeling of general heaviness and more particularly in the legs. You are deeply linked with telluric forces and sometimes struggle to detach yourself and progress. Learn therefore to «let go» on a daily basis and refuse to play a role of victim. Be also aware of your power and avoid abusing it. Thus, your life will be lighter and will become more cheerful.

14. Jackie Chan's mental attitude and professional

You like to collaborate and associate yourself with others in a harmonious and peaceful environment. The small attentions and appreciations count a lot for your well-being. For your evolution it is important to come out of your beaten tracks and experience new horizons and perspectives.

Sometimes those around you perceive you as obstinate and stubborn, because you want to impose your visions and your objectives. To revolutionize things and change the existing structures do not scare you and you hate rigidity. Nevertheless, you don't particularly realize that you can be very firm when it comes to pursuing a precise goal or if it means defending your ideas. If you succeed in freeing yourself from inculcable beliefs through your education, your professional possibilities are quite unlimited and you will succeed in realizing great missions.

15. Conclusion

Your evolution comes from some keys that you need to know how they work. You need to be aware to how much communication influences your reality, your acts, actions and realisation. You also need to open up to the power of speaking and to the acceptance of your own weaknesses is a strength. Asking for help is not "losing face" and you should dare to communicate a precise goal without waiting for different opportunities. It is also important to give back to the community what you got from it. It's the isolation inherited from your previous incarnations that create your undeniable fear of loneliness. keep the reactions of your "public*" in perspective and dare to reveal what's inside your heart. Observe your words, your communication. Observe the connection between what you say and what you do. If you don't understand the reactions of your words, then take a step back.
